

# Authentic feedback from students

## Course Steps in my Career Path

(We have not edited anything, not even the spelling mistakes).

*"For the last 4 days i have been studying professional career development 3 and I must say it is what I was lacking. It made me realised my fears and how to face them. Its Gained my strength. Its also made me realise those strengths. Am so glad I completed the course and Thank you!!"*

*"i really like how self paced this course was and there was always someone to help you with assignments when needed. the entrepreneurship part was very helpful too to understand the working life in finland together with the knowledge of discrimination act in finalnd and how in general people should be aware of discrimination."*
